

## Position Profile : 2209

Piping Engineer – Stress Analysis [Mid Career]

BATON ROUGE, LA

Prepared By: **ECIG**

This position profile has been compiled by ECIG to identify and hire for the specified role. The following is provided for your personal information and should be kept confidential.

## Piping Engineer | Stress Analysis (Mid-Career) [2209]

The world's leading specialist engineering contractor for low-density polyethylene (LDPE) and ethylene vinyl acetate (EVA) projects has an immediate need for a **Piping Engineer | Stress Analysis** is responsible for performing pipe stress analysis activities, lead teams on smaller jobs, performing stress calculations.

### COMPANY INFORMATION: [WEBSITE <https://ecigrouponline.com/engineering-services/> ]

Founded in 1977 ECI Group Inc. [ECIG] provides world-class engineering solutions to clients around the world, with have a long history of designing and developing industrial facilities and process plants for the production of fuels, chemicals and polymers. With core technical skills focused around the development and design of a range of processes, we continually embrace new technologies and innovative project methodologies which have contributed to our success in this field. Our full-service offering covers all Engineering discipline including Process, Mechanical (Machinery/Vessels), Piping and Pipe Stressing, Plant Layout, Electrical, Control & Instrumentation, and Civil & Structural. Our engineering services expertise includes:

- Concept Development - feasibility, cost estimates, front end design, basic engineering
- Detailed Design - hazard studies, FEA, DCS/SIS, flare systems, as-built drawings
- Owner's Engineer - Project Management, contractor evaluation, due diligence, technical reviews
- Safety Critical Engineering - SIL/LOPA, relief systems, HAZOP chair, thermal and vibrational stress analysis, design for high pressure / toxic / corrosive service

### BENEFITS AND FEATURES

- ✓ Full Benefits Package - health, dental, vision insurance.
- ✓ Company paid short & long-term disability and life insurance
- ✓ Flexible Spending Plans, Education Reimbursement, Dependent Care Spending Plan
- ✓ 401K Retirement Plan
- ✓ Hybrid Work Schedules

### YOUR ROLE WITH THE COMPANY:

- This position reports directly to the Piping Engineering Section Leader Shaunda White, P.Eng. [<https://www.linkedin.com/in/shaunda-white-7bb55380/>]
- Prepare Basic & Complex engineering deliverables in accordance with Company Management Systems, current legislation, Design Codes (ASME B31.3, ASME VIII, etc.) and relevant international standards.
- Check Basic & Complex engineering deliverables produced by others in accordance with Company Management System against current legislation, Design Code (ASME B31.3, ASME VIII, etc.) and relevant International Standards.
- Provide technical information in support of the project team.
- Attend technical design/project reviews to ensure compliance with customers' needs and QHSE requirements.
- Expand and maintain knowledge of the latest standards, legislation, products, and practices relating to the relevant engineering discipline to reinforce professional competency

<b>ECI GROUP</b>
<b>FOR MORE INFORMATION CONTACT:</b> <b><i>Kathryn "Kate" Wilhelm, PE</i></b> <i>Director of Global Engineering and Project Management Recruitment</i> <b>984 264 6709</b> <a href="mailto:kwilhelm@ecigrouponline.com">kwilhelm@ecigrouponline.com</a>

- Implement assigned engineering work within the budget and project timescale
- Commercial awareness of the impact of changes in scope, budget, and schedule overruns.
- Manage scope, budgets and schedules on small projects as required.
- Comply with the Company Management System and QHSE requirements
- Identify and present training and learning opportunities (both individual and departmental) for consideration.

### **COMMUNITY INFORMATION:**

- ✓ Baton Rouge is the 2<sup>nd</sup> largest metropolitan area in Louisiana and is a hub for major industrial, petrochemical, medical, research and motion picture and growing technology center of the American South.
- ✓ The home to LSU, the Port of Greater Baton Rouge (10<sup>th</sup> largest in terms of tonnage shipped)
- ✓ Located just 79 miles from New Orleans two professional sports teams (Saints - NFL, Pelicans - NBA) and New Orleans' world-renowned distinct music, Creole cuisine, unique dialect, and its annual celebrations and festivals, most notably Mardi Gras.
- ✓ ECI Group's Corporate office is conveniently located off the I-12 and Sherwood Forest Blvd S. exit.

### **BACKGROUND PROFILE:**

- Bachelor's Degree in Mechanical Engineering is required and open to pursuing PE Licensure for Texas and Louisiana
- 5-10 years of related experience in piping engineering design in oil & gas, petrochemical or plastics plants
- Detail-oriented with strong analytical skills and experience with Caesar II.
- General understanding of the entire cradle to grave workflow for an EPC Project, interdepartmental dependencies, recognition of the importance of TIC rather than individual constituents that make up the whole.
- Must be capable of working a part of a close-knit small core team as well as being self-reliant with the confidence to make decisions acting on their own initiative.
- Organized with the ability to support multiple concurrent projects.
- Accountable, confident, bright, articulate, innovative, highly motivated, and self-starter with a high energy level that performs with the highest integrity.
- Knowledge and understanding of industry codes, product safety standards, regulations, etc.
- Comfortable with occasional opportunities for international travel.
- ASME B31.3, Chapter IX, High Pressure Piping (preferred)
- Experience in plastic (e.g., LDPE) & Petrochemicals (preferred)
- High pressure (>300 barg) Piping & Tubing experience (preferred)

### **COMPENSATION:**

- ✓ Competitive Base Salary \$125,000 - 150,000 based on experience and professional certifications.
